-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The drawing is objected to because in Fig. 1, there is no letter "M" thereon, and because in Figs. 3 and 4, "Zeollite-NaX" should be "Zeolite NaX".

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 5 are indefinite because when "such as" is used in line 14, it is not known whether the broadly recited "filtering members" or the more specific "cloth or felt" is necessary to meet these two claims. Claims 2 and 6 are indefinite because they recite the trademark/tradename of "Gore-tex". Such trademark/tradename does not represent any specific material but is instead a name given to the class of materials which have the properties of that class. Claim 4 is indefinite because there is no direct antecedent basis for the recitation of either "the activated carbon" or "the zeolite" in claim 1, as such materials are first recited in claim 3. Claim 6 is further indefinite because it depends from itself. Claim 8 is indefinite for the same reason as claim 4, but with respect to claim 5. That is, there is no direct antecedent basis for the recitations of "the activated carbon" and "the zeolite". Claims 3 and 7 are indefinite because they depend from the above indefinite claims.

4. Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1724

5. The references listed on the PTO-892 show art of interest only, over which the claims define allowable subject matter.

6. Applicant's response to this Office action should also include the following editorial changes: Fig. 2 is composed of Fig. 2(a) and Fig. 2(b) and must be so described in the specification in the brief description on page 6, lines 19-23, and on page 8, lines 13-17; and on page 10, line 11, "a" should be "an".

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571) 272-1167. The examiner can normally be reached on Monday-Thursday from (5:30AM-4:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on (571) 272-1166. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
